שלום רב

Dear Rabbir. Lichtenstein and staff,

ע"מ

|| כל היום ימים וקיימנו כבוד לך

Our son, Shulem is finally in a "Yeshiva!" After thirty long years we are finally Zoche to place him into your wonderful Hamaspik Program. We never even dreamed that such a place existed! Every day, he has Tefillin put on!. He Daavens! He gets wholesome, delicious, Kosher, breakfast, lunch, and snack!. He Bentes! He Daavens Mincha! He hears Divrei Torah!

We never saw him so animated and excited to start each new day. He arrives home happy and content. Since he cannot relate about all the amazing projects he participated in, he shows us his notebook. His outstanding counselor, Yossi, takes the time and effort to write down the day's happenings. Then we can share it with Shulem at home.

Thank you for taking him on bi- weekly outings. The outdoor picnic at the zoo was such a great idea, especially on such a springlike day. The science museum gave Shulem an educational experience that he enjoyed very much.

Thank you for opening your doors and accepting Shulem so lovingly. May Hashem Bentch all of you with Kol Tuv!
